DTC ENGINEERS CHART

TABLES DE CONVERSION DTC TECHNISCHE DTC-TABELLEN

Order Code	Type	Diameter in.	Display mm.	Pack
530J	Pocket size	4 1/8	105	✓

Holds a great deal of useful information for Engineers, Draughtsmen, Toolmakers, Model Engineers and Designers. Made to a very high quality from a white plastic with printed letters. Converts mm. to in. Fractions in. to mm. Standard Wire Gauge. Thread diameters. Drill sizes in. & mm. Threads per in. Metric pitches. Clearing drill sizes. Tapping drill sizes. BSF, BSW, BA, BSP(GAS), ISO Metric Fine, ISO Metric coarse, UNF No.0 to 1", UNC No.1 to 1".

NB This is NOT a heating calculator

AKWAMASTA WATER LEVEL

Order Code	Display pack
1386Y	✓

One man water level for checking, transferring and comparing levels. Aluminium staff with adjustable datum marker is 39" 1m long with 30' 9m translucent hose. This enables levels within a maximum of 60' 18m diameter circle to be checked. Because both ends of the staff are mitred, both high and low positions can be measured. This makes the uses of the Akwamasta virtually endless for example- Form work; suspended ceilings; concrete columns; false ceilings; falls in pipework and drains; falls on patios; window frames; brickwork etc.

PLUMB BOBS

Order Code	Nom. Size	Weight oz	Weight gm	Display Pack
246U	00	1 1/2	45	✓
