GREASE MANAGEMENT

GREASE TRAP TREATMENT

Designed to degrade fats, oils, and grease (FOG) in catering industry wastewater systems.

Applied through floor drain, sink or directly into drainage system. Most effective when applied at the end of the day.

Used regularly, reduces and controls FOG levels and odours and thereby avoiding costly clogs, backups and overflows.

Product Code(s)

3741R GT-1 (1 US Gallon, 3.8 litres)

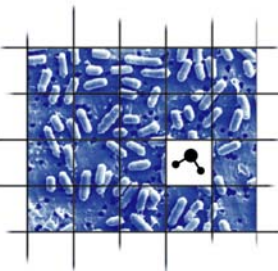

3742U GT-5 (5 US Gallons, 18.9 litres)

GREASE MANAGEMENT

GREASE TRAP MAX CONCENTRATE

Designed to degrade fats, oils, and grease (FOG) in catering industry wastewater systems where high flow rates require a highly concentrated product.

Applied through floor drain, sink or directly into drainage system. Most effective when applied at the end of the day.

Ideal for asian and oriental restaurants.

Used regularly, reduces and controls FOG levels and odours and thereby avoiding costly clogs, backups and overflows.

Product Code(s)

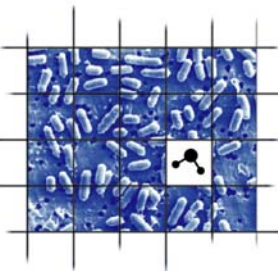

3743X GT-MAX (5 US Gallons, 18.9 litres)

GREASE MANAGEMENT

TRAP-SAK GREASE TRAP TREATMENT

Cylindrical shaped solid designed to be hung in a grease trap, large drain line or pump chamber. The Trap-Sak dissolves slowly, continuously releasing fat and food digesting bacteria. Also contains deodoriser and odour neutralising fragrance. Proprietary bacteria to treat specific needs of the catering industry. Environmentally friendly. Safe to handle and stock. Biodegradable.

Product Code(s)

3748M TS-2 TRAP-SAK (2lb) Approx 30 days use.

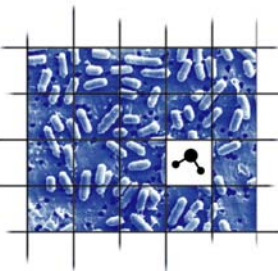

3729P TS-5 TRAP-SAK (5lb) Approx 10 weeks use.

DRAIN CLEANING and MAINTENANCE

MAIN DRAIN / MAIN LINE CLEANER

For use in toilet waste pipes, drains and sewers.

Bacteria digest sewage solids, fats, grease and paper in main drains and sewers.

Pour directly into toilet and flush into system.

Safe for use in drains, sewers and septic tanks.

No harmful, harsh, aggressive or dangerous chemicals.

Product Code(s)

3745D MLC-1 (1 US Gallon, 3.8 litres)

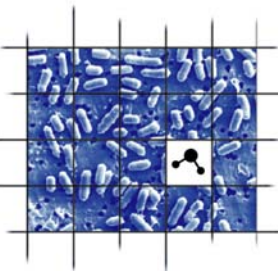

3746G MLC-5 (5 US Gallons, 18.9 litres)

DRAIN CLEANING and MAINTENANCE

DRAIN & TRAP DEODORISER

Fine, white granular powder.

Mix with warm water and apply to floor drains, traps, bar drains
and mop buckets.

Eliminates odours in food service areas.

Environmentally friendly.

Safe to handle – no harsh chemicals.

Product Code(s)

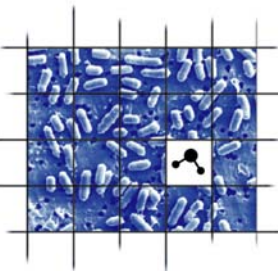

3744A DT-1 (2kg) – Approx 50 treatments.

SEWAGE SYSTEM ADDITIVES

SEPTIC TANK TREATMENT

Specially formulated to meet the demands of septic tanks in catering facilities by breaking down starches, cellulose, grease, food oils in addition to organic chemicals present in cleaning products frequently used in kitchens. Easy to use, keeps septic tanks' contents liquid and prevent over-accumulation of organic waste. Works in both septic tanks and drainfields, preventing clogging and unpleasant odours in the septic system. Bacteria produce enzymes which digest protein, keep tank contents liquid and prevent over-accumulation of organic waste.
